Disbursements such as the above Court Fees are costs related to your matter that are payable to third-parties. We handle the payment of disbursements on your behalf to ensure a smoother process.

It is important to note that the level of the issue fee to be paid to the Court depends on the value of the claim. Clients should be aware that interest and compensation due may take the debt into a higher bracket where a higher issue fee is due.

The above quotes do not include matters where further enforcement action is necessary, for example instructing third party recovery agents or bailiffs to recover sums due.
